Projects

Character recognition using Deep learning

08/2022 – 11/2022

This project is basically to recognize handwritten character. Still this project is under development. I am trying to improve it in that level it interpret doctor's notes.

Showing a dynamic routine using raspberry pi

08/2021 – 08/2021

Basically in this project we modified a TV using raspberry pi 2B (due to unavailability of latest version). We used different modules to fetch weather updates.

Using CSS we made the design. The TV can show the routines of all years as well as the time remaining to start the next class.
